

E U R O P E A N - S T Y L E
K E Y P A D S

European-Style Keypads provide the ability to control and monitor lighting, audio, video, and other home systems, in a single room and throughout your home. Each Keypad button may be programmed to control an individual lighting zone, any group of lighting zones, or a lighting scene for your entire home and landscape. By taking the place of several switches, Keypads minimize wall space, while maximizing the number of functions possible.

The design of this Keypad features large, rounded buttons and large LEDs to clearly show lighting status. The unique square shape of this Keypad adds distinction to any installation.

DESIGN NOTES:

EUROPEAN - STYLE KEYPADS

Large LED Large, rounded button

HWI-2SE

A = 3.38" (86mm)
B = 3.38" (86mm)

Large LED Large, rounded button

HWI-4SE-M

(HWI-4SE-IR also available)

A = 3.38" (86mm)
B = 3.38" (86mm)

Raise/lower

Large LED Large, rounded button

HWI-8SE-IR

(HWI-8SE-M also available)

A = 3.38" (86mm)

IR Receiver

Raise/lower

FEATURES

- Each button on a Keypad may be programmed to perform any one of many different functions, including
 - turning individual scenes/zones on or off
 - turning selected scenes/zones on or off as a group
 - raising or lowering selected scenes/zones as a group
- LEDs beside each button show the status of the scene or lighting zone programmed to that button

NOTE: Lutron recommends that Keypads be mounted close to eye level (between 52" and 60" high)
