

HomeWorks® | 4 series

example systems

total home lighting control system
for new construction homes
and major renovations

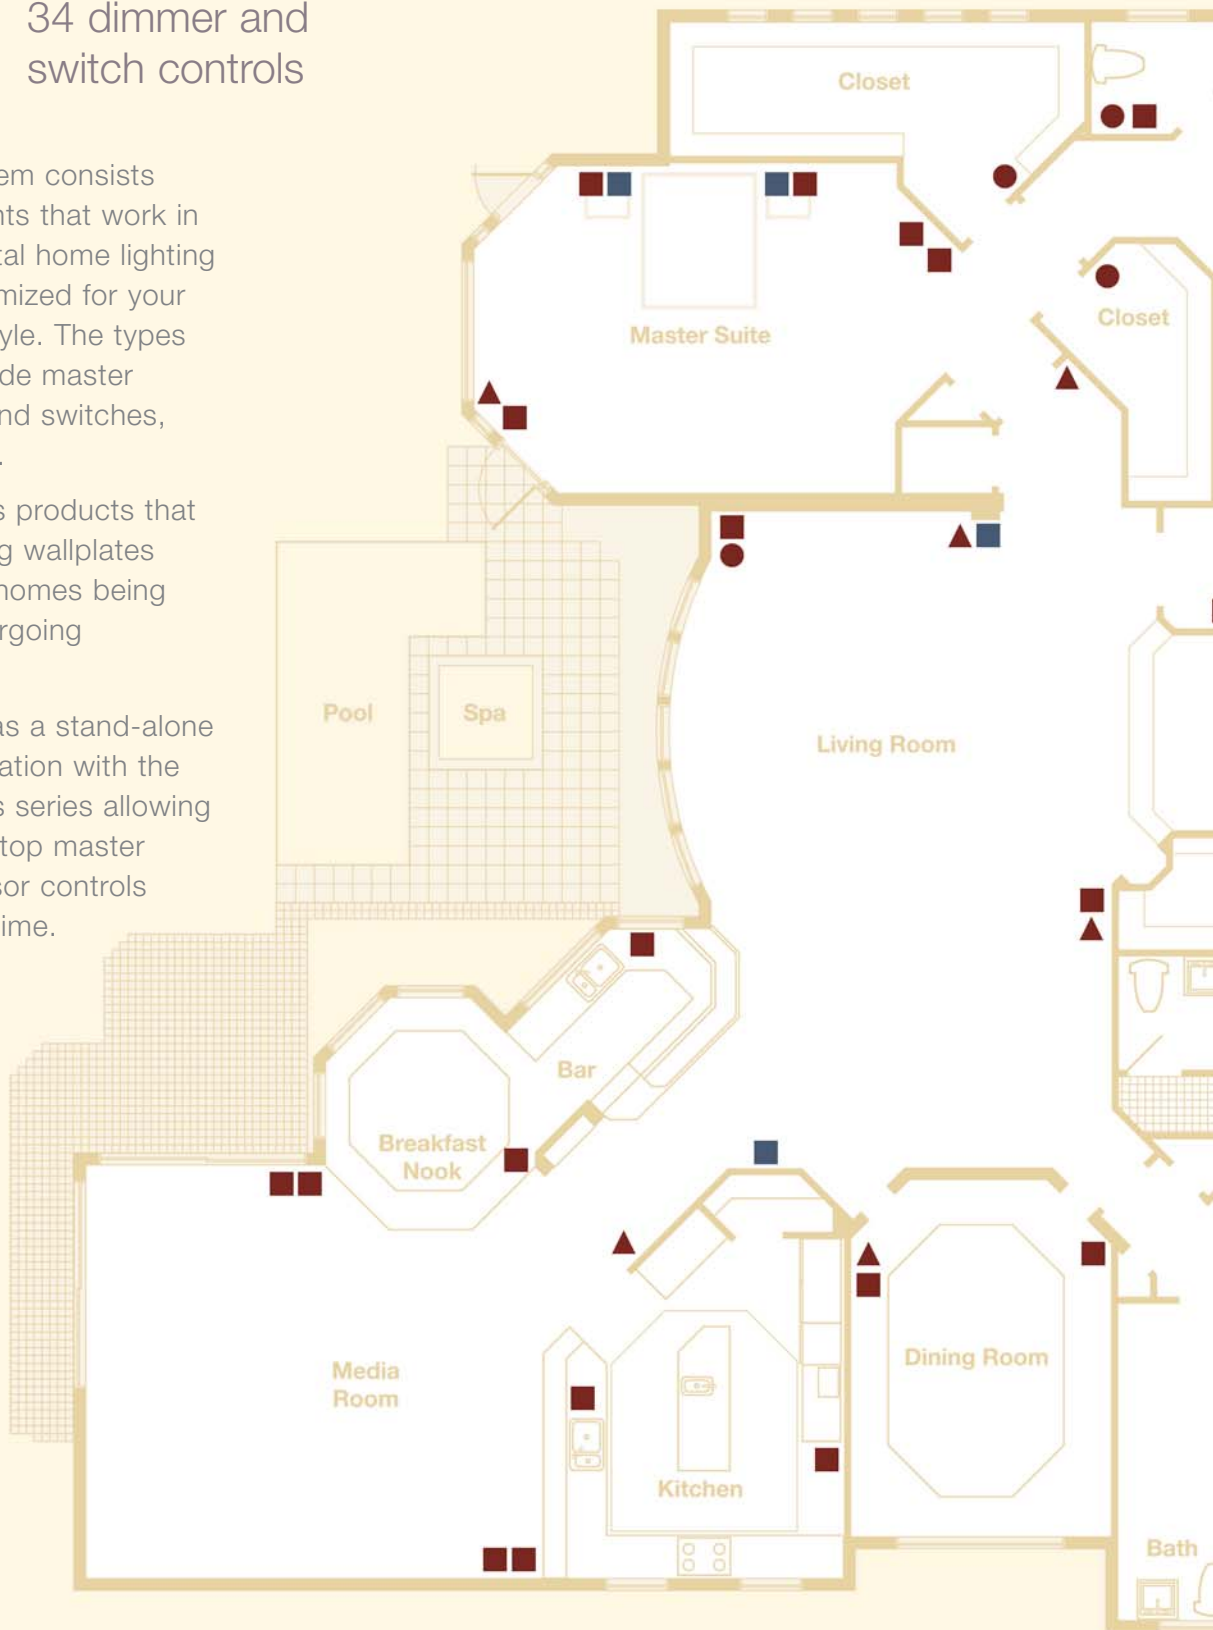

Example

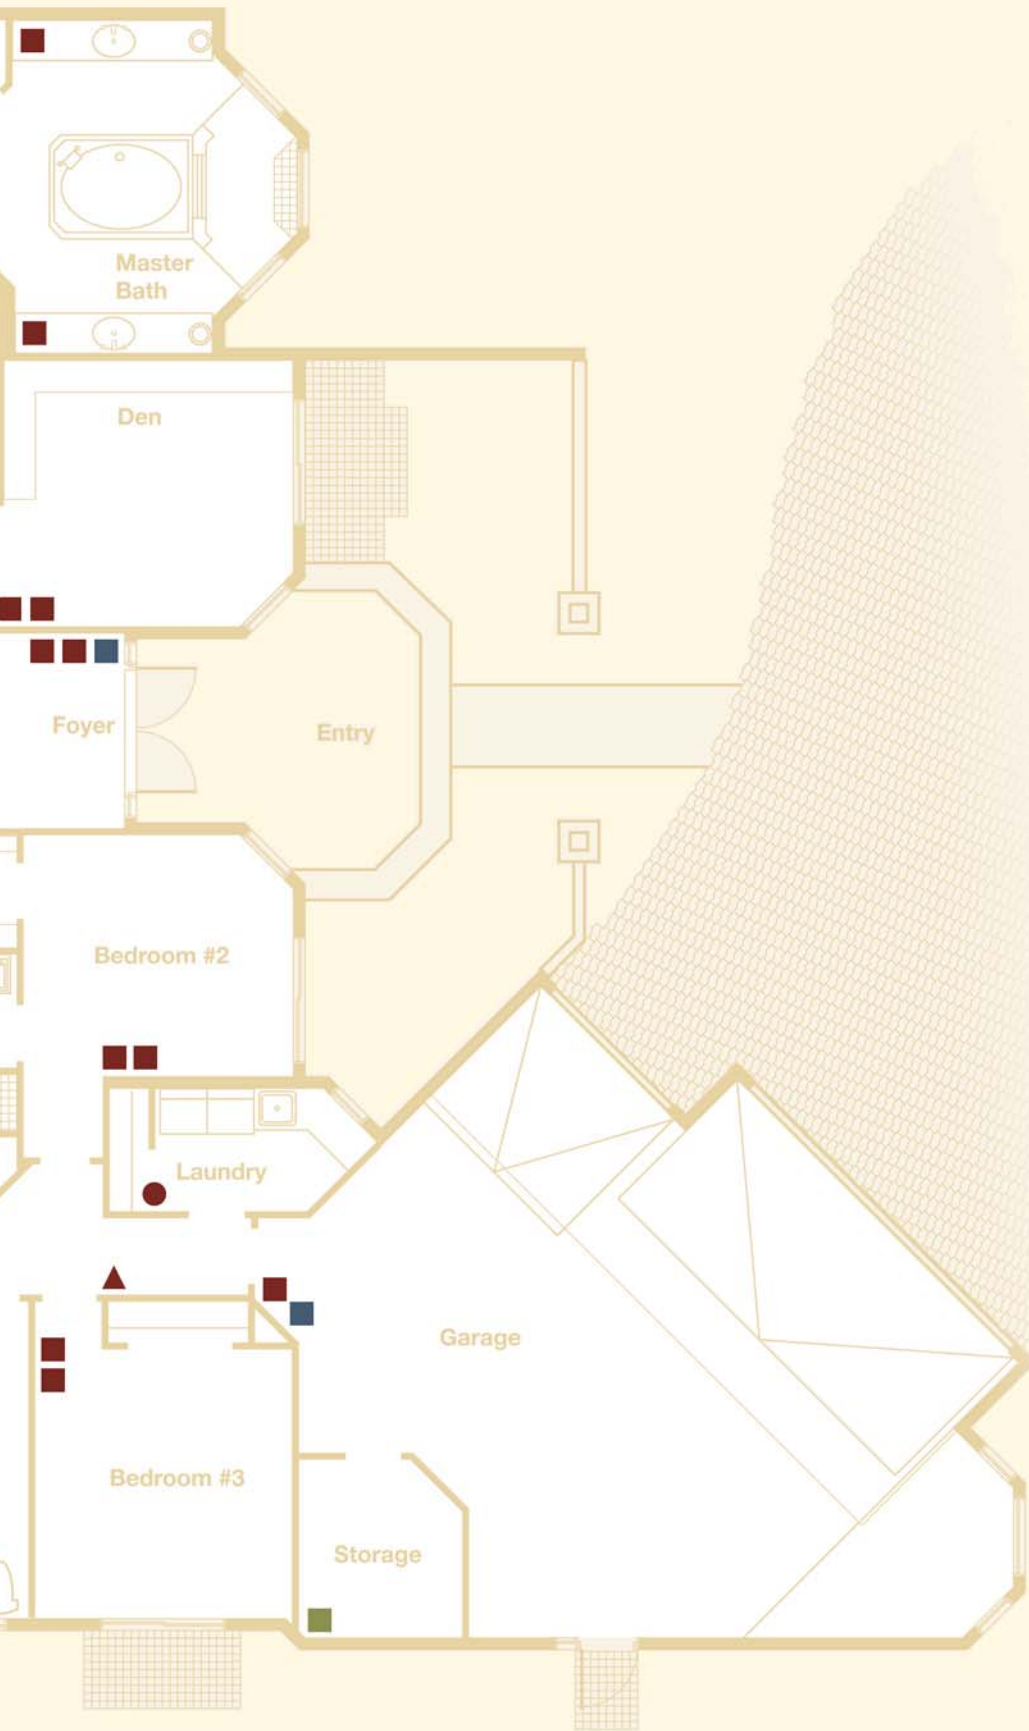

34 dimmer and switch controls

A HomeWorks® system consists of several components that work in unison to provide total home lighting control that is customized for your home and your lifestyle. The types of components include master keypads, dimmers and switches, and system controls.

The 4 series features products that use designer opening wallplates and is designed for homes being constructed or undergoing major renovations.

The 4 series works as a stand-alone system or in combination with the HomeWorks wireless series allowing lamp dimmers, tabletop master keypads, and car visor controls to be added at any time.

HomeWorks®

A 4 series system can be custom designed to meet the needs of any new construction home. Below are a few example systems.

9 dimmer and switch controls

System controls 9 zones of light from 3 master keypads

- 3 in-wall master keypads
- 9 in-wall dimmers and switches
- 3 in-wall remote dimmers
- 1 auxiliary equipment interface
- 1 processor

34 dimmer and switch controls

System controls 34 zones of light from 6 master keypads

- 6 in-wall master keypads
- 34 in-wall dimmers and switches
- 7 in-wall remote dimmers
- 1 auxiliary equipment interface
- 1 processor

example shown inside

60 dimmer and switch controls

System controls 60 zones of light from 12 master keypads

- 12 in-wall master keypads
- 36 in-wall dimmers and switches
- 5 in-wall remote dimmers
- 4 wallbox power modules (24 zones of light)*
- 1 auxiliary equipment interface
- 1 processor

80 dimmer and switch controls

System controls 80 zones of light from 20 master keypads

- 20 in-wall master keypads
- 44 in-wall dimmers and switches
- 10 in-wall remote dimmers
- 6 wallbox power modules (36 zones of light)*
- 1 auxiliary equipment interface
- 1 processor

System equipment prices without installation start under \$5000. Contact an authorized HomeWorks installer for pricing and details.

* Each wallbox power module is used in placed of 6 light switches.
